

A fast stylish yacht MUSE is the second in the 123 sports Flybridge series from Palmer Johnson, offering first-class charter experiences from the sun drenched beaches of the Caribbean and Bahamas to the scenic serenity of historic New England...

A fast, stylish yacht MUSE is the second in the 123 sports Flybridge series from Palmer Johnson, offering first-class charter experiences from the sun drenched beaches of the Caribbean and Bahamas to the scenic serenity of historic New England.

MUSE's sleek exterior is complimented by a Nuvolari-Lenard interior that boasts beautifully detailed hardwoods, Italian fabrics and a distinctive collection of fine arts and sculptures, creating an atmosphere of sheer elegance and relaxation. This theme continues throughout the main deck living areas, including the open salon and main dining area. With seating for eight guests around the sycamore dining table and an array of inviting arm chairs and sofas, this well-appointed space is suited to both relaxed and more formal situations.

The magnificent master cabin is located forward on the main deck and makes good use of space with a king-sized bed and generous his and hers cedar wood closets, a sofa, writing desk and en suite bathroom. The VIP suite, located on the lower deck, is a very well-appointed alternative to the master and offers similar levels of comfort. The two guest doubles sit further forward, offering queen-size beds, large en suite shower rooms and generous closet space.

The outdoor spaces offer the perfect location for relaxing and al fresco dining. On the main deck aft, guests can make full use of the outdoor bar to enjoy an evening sundowner cocktail before settling down to dinner around the dining table, accommodating up to eight guests. With plenty of shading from the above deck, this area also makes a fine option for enjoying a light lunch, perhaps after a spot of swimming or water sports from the large swim platform. The sundeck presents more opportunities for outdoor living with another dining table for eight and a wet-bar. A BBQ, fridge, wine cooler and an ice-maker ensure guests will have their every need met while enjoying the fantastic Jacuzzi tub and lounging in the sun.

MUSE offers the latest in high speed satellite broadband equipment with onboard laptop computers allowing guests access to their office anywhere in the world. The yacht also features state-of-the-art music and movie servers as well as satellite television in every room.

With speeds of up to 23 knots, MUSE promises to be a fun, stylish and exciting yacht that will no doubt exceed the expectations of her guests.

Tenders and Water Toys

MUSE is well-equipped with an abundance of water toys for endless hours of fun on or below the waves, under the watchful eye of the crew. Guests can go for a ride on the jet skis; water-ski, knee or wake board behind one of the fast tenders; take a hair-raising trip on one of several inflatables; enjoy the underwater world by snorkeling, scuba diving or taking a leisurely paddle in see-through kayaks; go fishing; or sail on the dinghy. The swim platform provides easy access to the water for both swimming and boarding the yacht's tenders and toy.

The full complement of water sports equipment aboard Muse:

- 1 x 32ft Boston Whaler 320 Conquest with twin 275 Mercury Verados 4 stroke super charged outboards
